

COURSE OVERVIEW

The 22316VIC Advanced Diploma Of Myotherapy focuses on the assessment, treatment and rehabilitation of musculoskeletal injuries and pain. By completing prior studies within remedial massage this course provides the opportunity to further enhance your clinical assessment and treatment skills.

Myotherapists utilise a range of treatment techniques to restore and maintain the normal integrity of the soft tissue structures. This course is perfect for students who want to gain skills in advanced clinical assessment and who want to apply evidence based practice to treat and rehabilitate pain and injuries.
